

Raytheon Indianapolis is a leading provider for a wide range of engineering, manufacturing and product support capabilities, all located under one roof. Our experience covers a multitude of defense programs and spans the product life cycle from concept development through system retirement. Our resources include well-equipped facilities for the manufacture, repair, overhaul and upgrade of radar, Electro-optic, electronic, and mechanical/electromechanical systems. Engineering and Production Support is a business unit of Raytheon Technical Services Company.

General directions to:

Raytheon Technical Services Company-Indianapolis

Exiting the airport area traveling east on Airport Expressway, cross over I-465 and past the Adams Mark Hotel. One-quarter mile beyond the Adams Mark is the I-70 East on-ramp. Take I-70 East.

About 5 miles later, as the RCA Dome and downtown appear on your left (after the West Street exit), you will approach the I-70 East, I-65 South fork. Remain on I-70 East (left fork). One mile later, you will approach the I-70 East, I-65 North fork. Remain on I-70 East (right fork).

About 5 miles later, you will approach the I-70 East, I-465 fork. Take I-465 (right fork). The Shadeland Ave. exit appears immediately after you take the I-465 fork. At the bottom of the off-ramp, turn right. At the very first light, 21st Street, turn right. About 1/2 mile later, you will see the Raytheon fence on your left and a traffic light. Turn left at the traffic light to enter the Main Gate. Turn right after entering the gate and park in space marked for visitor.
